SUMMARY

Full stack developer and QA with a Computer Science degree (PUC-SP), currently taking FIAP's Post Tech in AI for Devs. Experienced in test automation (Playwright, Percy, Cypress) and web and mobile development with React, React Native, Node.js and Python. My recent projects put LLMs, RAG and agents into real products.

EXPERIENCE

QA Analyst · Lucy — 2025 – present

- Manual and automated testing to ensure delivery quality.
- Flow automation with Playwright and visual regression with Percy.
- Focus on system reliability and user experience.

Junior QA Analyst · Virtual Town — 2023 – 2025

- Ran and managed the test life cycle in Jira.
- Built an HTML, CSS, JavaScript and Express panel that automated the team's recurring tasks.

Unity Intern · VRGlass — 2022 – 2023

- Supported game development: finding and fixing bugs.
- Process improvements for system stability and performance.

EDUCATION

Post Tech AI for Devs · FIAP — 2026 – in progress

B.Sc. in Computer Science · PUC-SP — 2022 – 2025

SKILLS

Front-end	React, React Native, Next.js, TypeScript, JavaScript, Tailwind, HTML, CSS, Expo
Back-end	Node.js, Express, Fastify, Python, FastAPI, Prisma
Databases	PostgreSQL, MySQL, SQLite, Supabase, Redis
AI & Data	OpenAI API, LangChain, LangGraph, fine-tuning (LoRA/QLoRA), RAG, scikit-learn, Pandas, SHAP
Testing & QA	Playwright, Percy, Cypress, Postman, Jira
Tools	Git, GitHub, Docker, Electron, Figma, Adobe CC

SELECTED PROJECTS

- **Relâmpago:** voice assistant that organizes Google Calendar: transcription, agent and speech with OpenAI. (Next.js 16, TypeScript, OpenAI, Google Calendar API)
- **Nublar Finance:** personal finance desktop dashboard, with the API as source of truth. (Electron, React, Prisma, PostgreSQL, Turborepo)
- **MedProtocol AI (FIAP):** simulated hospital protocol assistant with a fine-tuned LLM, cited RAG and human review. (Python, LangChain, LangGraph, LoRA, SQLite)
- **Heart Risk (FIAP):** screening with a recall-tuned Random Forest: 91.7% recall and 0.885 ROC-AUC on test. (scikit-learn, XGBoost, SHAP)
- **Thesis: AI Fitness System:** training and diet app personalized by a fine-tuned GPT-4o mini. (React Native, FastAPI, OpenAI, MySQL)

LANGUAGES

- Portuguese (native)
- English (intermediate) · CCAA 2011–2018, Academia Washington 2018–2019

COURSES

- CC50 · Harvard's Computer Science course in Brazil
- Front-end program (HTML, CSS, JavaScript and React) · Udemy
